## Do I need to enter the unlock code every time I log in to the platform?

No. The unlock code should only be entered the first time; the book will be unlocked and associated with your username (your email) forever.

## The system tells me that the code has already been used, what should I do?

Unlock codes can only be used once. Once used they are associated with the username (email) that used them.

First check your unlocked materials to make sure you haven't already unlocked the book. If you bought a used book instead, the code on it printed may have been used by the book owner; in this case you can buy a new unlock code. Follow the steps indicated after entering the unlock code used.
